

Keep your employees and your business on the right track.

Care.com works for employees

70%

say that benefits like Care.com influence their decision to join or stay with a company

90%+

agree they are better able to balance work, family and personal obligations

90%+

report they are more satisfied with their jobs and employers because their personal needs were met

School vacations. Sick kids. Aging parents. The demands of family life can make it hard for employees to focus on their work—and that's costly for your business: about 9 days a year in absenteeism per employee and 6% of total payroll.

Boost productivity with Care.com. And provide more options, access and coverage than you get with any other service.

- Attract and retain top talent
- Reduce costs and improve productivity
- Create loyalty and a 'best place to work' culture

Reduce care coverage gaps two ways.

Offer your employees the care they need whenever they need it.

In-Home Care

- Thousands of qualified local caregivers
- Child Care, Special Needs and Senior Care providers
- Providers have opted in to be available on short notice

In-Center Care

- Thousands of top child care centers
- Highly trained staff delivers quality care
- Availability for children age 6 weeks to school age

Improve productivity with our backup care options.

Every employee's care needs are unique—and so are their preferences for accessing care. With Care.com, your employees can choose what's right for them:

Advisor-led

Let us do the work. Our Advisors connect employees with a caregiver or center.

- Previously used caregivers or centers can be requested
- Employees can request in-home or in-center care by phone or online

Employee-directed

Employees connect directly with prescreened caregivers via our secure online platform or mobile app.

- Employees can create a bench of preferred caregivers
- Detailed profiles display experience, availability, photos and reviews

Benefit from our experience.

As the global leader in quality care services, we've created custom care benefit packages for some of the most innovative companies in the world. And we can do the same for you.

Let us help you design a backup care solution for your business.
